PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience building responsive, user-friendly web applications with React.js, JavaScript, HTML5, CSS3, and Bootstrap, backed by MySQL databases and Python. Experienced in reusable UI components, client-side validation, database optimization, and WordPress customization. Reliable team player who writes clean, documented code. Currently pursuing an MCA in Generative AI to extend my skills into AI-powered applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, jQuery, Bootstrap

Backend & Database: Python , MySQL, REST API integration

CMS: WordPress (themes, plugins, customization)

Languages: English, Tamil

Tools: Git, GitHub, VS Code, Cross-Browser Testing, Debugging

PROFESSIONAL EXPERIENCE

Full Stack Developer — Sep 2024 – Aug 2026

VisionQuest Solutions Pvt Ltd | Bengaluru, India

- Developed responsive web applications using HTML, CSS, Bootstrap, and JavaScript.
- Built reusable, interactive UI components with React.js and jQuery.
- Implemented client-side validation and dynamic features to improve data quality and user experience.
- Managed MySQL database operations and optimized queries; supported back-end development in Python.
- Developed and customized WordPress websites and plugins.
- Ensured cross-browser and mobile compatibility; debugged, tested, and optimized application performance.
- Collaborated with team members and stakeholders, maintaining clean, documented code.

Full Stack Developer Intern — Feb 2024 – Aug 2024

Techienutpam | Chennai, India

- Assisted in building and maintaining responsive websites with HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Worked with developers to design and implement user-friendly UI components.
- Supported testing, debugging, and deployment activities for reliable web solutions.

PROJECTS

Inventory Management System — React.js, Redux, MySQL

- Built a stock-tracking solution that bridges warehouse operations and digital records, reducing human error in stock maintenance.
- Created a real-time dashboard with charts for total stock value, low-stock alerts, and recent transactions.
- Implemented management of products, categories, and suppliers with advanced filtering and search.
- Designed a MySQL schema handling many-to-many relationships between products, orders, and suppliers; managed UI state with Redux.

TechMart E-Commerce Storefront — HTML, CSS, JavaScript

- Built a responsive online store with user login, a 24-product catalog, and a working shopping cart.

Guess E-Commerce — HTML, CSS, Bootstrap, JavaScript, React.js

- Developed a responsive e-commerce website with interactive UI components and client-side validation, tested across browsers and devices.
